SAFETY DATA SHEET

Section 1: Identification

Product identifier: OREAS 70B
Other means of identification:
Product code: Q0203078
Recommended use of the chemical and restrictions on use:
Recommended use: Used as a check standard for soil and geochem calibrations.
Restrictions on use: None known.

Details of manufacturer or importer:
Company name: Evident Australia PTY LTD
Address: Level 4, 97 Waterloo Road, Macquarie Park NSW 2113 Australia
Telephone number: +1800-844-211
Fax: +
Emergency Tel: 13 11 26 (Poison Information Centre)

Section 2: Hazard identification

Classification of the hazardous chemical:

Physical hazards: Not classified.
Health hazards:
- Sensitization, skin Category 1
- Germ cell mutagenicity Category 2
- Carcinogenicity Category 1A
- Specific target organ toxicity following repeated exposure Category 1

Environmental hazards:
- Hazardous to the aquatic environment, acute hazard Category 3
- Hazardous to the aquatic environment, long-term hazard Category 3

Label elements, including precautionary statements:

Hazard symbol(s):
Health hazard
Exclamation mark

Signal word: Danger

Hazard statement(s): May cause an allergic skin reaction. Suspected of causing genetic defects. May cause cancer. Causes damage to organs through prolonged or repeated exposure. Harmful to aquatic life with long lasting effects.

Precautionary statement(s):
Prevention: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves.

Response: IF ON SKIN: Wash with plenty of soap and water. IF exposed or concerned: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage: Store locked up.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards which do not result in classification: None.
Section 3: Composition/information on ingredients

Mixture

</tr>
</tbody>
</table>

Composition comments: The hazard evaluation is based on the content of nickel sulphide.

Section 4: First-aid measures

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact: Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

Eye contact: Do not rub eyes. Rinse with water. Get medical attention if irritation develops and persists.

Ingestion: If exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.

Personal protection for first-aid responders: Dusts may irritate the respiratory tract, skin and eyes. May cause an allergic skin reaction. Dermatitis. Rash. Prolonged exposure may cause chronic effects.

Symptoms caused by exposure: Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

Medical attention and special treatment:

Section 5: Fire-fighting measures

Extinguishing media: Use fire-extinguishing media appropriate for surrounding materials.

Extinguishing media to avoid: None known.

HAZCHEM Code Number: None.

Specific hazards during firefighting: None known.

Special fire fighting procedures: Use water spray to cool unopened containers.

Protection of fire-fighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Hazards from combustion products: None.

Specific methods: Use standard firefighting procedures and consider the hazards of other involved materials.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe dust. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders: Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

Environmental precautions: Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Minimise dust generation and accumulation. Collect dust using a vacuum cleaner equipped with HEPA filter. Prevent product from entering drains. Stop the flow of material, if this is without risk.

Large Spills: Wet down with water and dike for later disposal. Shovel the material into waste container. Following product recovery, flush area with water.

Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal.

Never return spills to original containers for re-use. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS.

**Section 7: Handling and storage**

**Precautions for safe handling**

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Minimise dust generation and accumulation. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Avoid contact with eyes, skin, and clothing. When using, do not eat, drink or smoke. Should be handled in closed systems, if possible. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**

Store locked up. Store in tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see section 10 of the SDS).

**Section 8: Exposure controls/personal protection**

**Control parameters**

Follow standard monitoring procedures.

**Occupational exposure limits**

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Appropriate engineering controls**

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. If material is ground, cut, or used in any operation which may generate dusts, use appropriate local exhaust ventilation to keep exposures below the recommended exposure limits.

**Individual protection measures, for example personal protective equipment (PPE)**

| Eye/face protection | Use tight fitting goggles if dust is generated. |
| Skin protection | Wear appropriate chemical resistant gloves. |
| Hand protection | Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended. |
Respirator with dust filter.

Wear appropriate thermal protective clothing, when necessary.

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

### Section 9: Physical and chemical properties

**Appearance**

- **Physical state**: Solid.
- **Form**: Powder.
- **Colour**: Not available.
- **Odour**: Not available.
- **Odour threshold**: Not available.
- **pH**: Not available.
- **Melting point/freezing point**: Not available.
- **Initial boiling point and boiling range**: Not available.
- **Flash point**: Not applicable.
- **Evaporation rate**: Not applicable.
- **Flammability (solid, gas)**: This material will not burn.

**Upper/lower flammability or explosive limits**

- **Flammability limit - lower (%)**: Not available.
- **Flammability limit - upper (%)**: Not available.
- **Explosive limit - lower (%)**: Not available.
- **Explosive limit – upper (%)**: Not available.

**Vapour pressure**: Not applicable.
**Vapour density**: Not applicable.
**Relative density**: Not available.

**Solubility(ies)**

- **Solubility (water)**: Insoluble in water.

**Partition coefficient (n-octanol/water)**: Not available.

**Auto-ignition temperature**: Not applicable.

**Decomposition temperature**: Not available.

**Other physical and chemical parameters**

- **Explosive properties**: Not explosive.
- **Oxidising properties**: Not oxidising.

### Section 10: Stability and reactivity

**Reactivity**

The product is stable and non-reactive under normal conditions of use, storage and transport.

**Chemical stability**: Material is stable under normal conditions.

**Possibility of hazardous reactions**: No dangerous reaction known under conditions of normal use.

**Conditions to avoid**: Contact with incompatible materials.

**Incompatible materials**: Powerful oxidizers. Chlorine.

**Hazardous decomposition products**: No hazardous decomposition products are known.

### Section 11: Toxicological information

**Information on likely routes of exposure**

- **Inhalation**: Dust may irritate respiratory system. Chronic lung disease (silicosis) and/or lung cancer may result from prolonged/repeated breathing of the dust of this material.

- **Skin contact**: Dust or powder may irritate the skin. May cause an allergic skin reaction.

- **Eye contact**: Dust may irritate the eyes.
Ingestion
Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics
Dusts may irritate the respiratory tract, skin and eyes. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity
Not expected to be acutely toxic.

Skin corrosion/irritation
Prolonged skin contact may cause temporary irritation.

Serious eye damage/eye irritation
Direct contact with eyes may cause temporary irritation.

Respiratory irritation
Dust may irritate respiratory system.

Respiratory or skin sensitisation

Respiratory sensitisation
Not a respiratory sensitisier.

Skin sensitisation
May cause an allergic skin reaction.

Germ cell mutagenicity
Suspected of causing genetic defects.

Carcinogenicity
May cause cancer.

ACGIH Carcinogens
Nickel sulphide (CAS 16812-54-7)
A1 Confirmed human carcinogen.

Quartz (CAS 14808-60-7)
A2 Suspected human carcinogen.

IARC Monographs. Overall Evaluation of Carcinogenicity
Nickel sulphide (CAS 16812-54-7)
1 Carcinogenic to humans.

Quartz (CAS 14808-60-7)
1 Carcinogenic to humans.

Reproductive toxicity
This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure
Not classified.

Specific target organ toxicity - repeated exposure
Causes damage to organs through prolonged or repeated exposure.

Aspiration hazard
Not an aspiration hazard.

Narcotic effects
No data available.

Chronic effects
Causes damage to organs through prolonged or repeated exposure.

Section 12: Ecological information

Ecotoxicity
Harmful to aquatic life with long lasting effects.

Persistence and degradability
No data is available on the degradability of any ingredients in the mixture.

Bioaccumulative potential
No data available.

Mobility in soil
No data available for this product.

Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

Section 13: Disposal considerations

Disposal methods
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Residual waste
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Special precautions to be taken during disposal
Dispose in accordance with all applicable regulations.

Method of disposal that should not be used
None known.

Section 14: Transport information

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Section 15: Regulatory information

Applicable regulations HSNO - N.O.S. (Toxic [6.1, 6.7]) Group Standard 2017 [HSR002625]

New Zealand Inventory of Chemicals (NZIoC): Registration status
Quartz (CAS 14808-60-7) HSNO Approved

Section 16: Other information
